14. Item 5835-H00-8927, Recorder, Revere T700D: This recorder was in at inventory in January 1963. Due to limited storage space in warehouse, we were requested by SD/OL to move non-sensitive items of equipment out of . On 29 January 1963, an open bay area was assigned to this division for storage. This item was included with other stocks which had to be moved. A PTI was prepared on 19 February 1963 to turn item in to stock, since it was condition 3 reparable and wired for 220 volt operation. While pulling material for turn-in from locations listed on inventory, recorder could not be located. A spot inventory, of SD/OL stock was taken to see if recorder had inadvertently been removed from the open bay and put in to General Stock. Report received from this verification is that SD/OL inventory balanced. It is the opinion of the responsible officer that all possible effort has been expended to locate this item within the limits of this office's jurisdiction and knowledge and further efforts to locate item should be resumed by the OL Security Staff and Chief of
